Complainant-applicant

Vrs

SPIO,
Higher & Technical Education Department,
Mizoram, Aizawl.

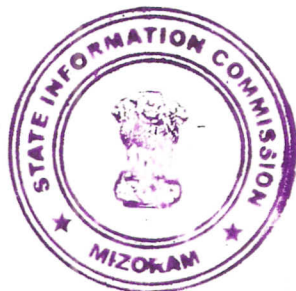

Respondent.

ORDER
(2.7.2010)

An representation was submitted by Lalmachhuana, Chaltlang, Aizawl, against the Order of the Information Commission registered under Case No C.51/2010-MSIC dated 21.6.2010 in which the Commission disposed of the case after the statement submitted by SPIO, Higher & Technical Education Department, that the required information was given to the applicant on the last day of the specified period of time. In his representation, the applicant stated that he submitted his application to the SPIO on 7.5.2010 and that he was given the required information on 7.6.2010. The applicant, therefore, contended that counting from the date the information application was submitted, i.e., 7.5.2010, he was given the required information on the 32nd day of his application and that he is entitled to being given the required information free of cost after expiry of 30 days. The applicant, therefore, made a fervent request to the Commission to review its decision earlier made on the issue.

On careful consideration of the representation, the Commission has the impression that the applicant may be correct technically. However, the Commission has opined that the applicant should have raised this question at the time of making payment. The Commission further noticed that payment has already been made by the applicant and the required information has been given to him. Since this is a matter of settled case and fait accompli, the Commission found no reason to re-open the case and there is no provision under the RTI Act for filing representation against decision or order of the Commission.

The case, therefore, is closed accordingly.

(K. TLANTHANGA)
Information Commissioner
